Carlisle Returned Student Good Example.

In a letter to Mr. Friedman, Superintendent Scott of the Crow Agency has the following to say with reference to Richard Wallace, a Crow Indian who attended this school many years ago and is now out making a good living, and is an example to his people:

“Richard Wallace is a Carlisle man and is one of the best and most progressive Indians on the reservation. He is engaged in stock business and farming, and is rapidly growing wealthy. If all our Indians were like Dick Wallace, there would be no Indian problem to solve.”
