Dear Sir,

I have made up
 my mind to write to you
 for some times but I have been
 keep my self very busy all the time
 but to day I had little extra time
 so I expect to write you a
 words or few. I write you
 a letter for this reason
 some time ago I have a letter
 from my father and then he

said I must come home and
stay at home a month or two
but I am very much desire
to get through my course
of studies. so I told him that
I can not come for that
reason. also he say payment
will be this month some time.
I must go home and draw my
money. so I went to all Capit
Poat. About this. then he say
that I got my money all right
enough. Told me to write
to my father. tells him
that I had my money all
right enough so far. so

I can not go home. beside this
he say I must write + tells
you about this I have made
up my mind to write to
you. - so I thought I would
possible write to you now +
to say that heretofore I desire
you to send my money here
to me. as to know that you
will send me in time. I
expect to received every
payment + I suppose + it is
impossible to draw money. I
have be prior to draw my
money for several weeks but
simply tells me how much

I have in Second Auditor's
Office. Yet oblige to know how
much I had but I desire
to had here too.

I expect this is all
Respect fully—
yours.

Amos Hamilton
