

U. S.

Indian Industrial School,

Carlisle, Pa., July 15 1884

My dear Doctor.

Owing to the delay of Congress on App<sup>r</sup> Bills, I did not get assurance of money until yesterday. Dr McCauley was going to New York and I thought I would go over and see you and plan for the trip, for the Doctor is inclined to go along. I failed to get response to my telegram so opine that you are away from home. I can start on the 28<sup>th</sup> or as soon after as you like not later than Aug. 4. I shall get passes for us and so lessen the expenses. You can do me a great service for the school in helping to select healthy children, and for yourself I can promise you a visit to the two tribes whom I think most interesting of any we have. If you have doubt about going I would rather come

and talk it over with you before having  
you determine against it.

We shall need three to four weeks.  
I would like to stop a few days at  
the Las Vegas <sup>N.M.</sup> Hot Springs, and I  
think you would too. It is about all  
the rest I anticipate this year.

You know that Dr. McCauley is  
Pres. of our Dickinson College.

Affectionately Yours  
R. W. Ball

Dr. Agnew

Please write or telegraph if  
I shall come over.
