

Carlisle, Pa., Oct. 12th 1886.

My dear Friend,

Putting my 46
years and your 56 together,
I stay away from Mohawk.
I would hardly be able to
keep quiet, and could hardly
speak without exposing what
I have seen and what I
feel, in both cases doing
harm to my position. It is
hard to keep quiet, but I
must.

We are in full flow once
more with 16 more pupils
than our highest number
last year, and more to
come. Have made a far
better beginning than ever
before. Wish you could come

down for a day.

Faithfully & Affectionately

Yours

It would be a supreme
moment in our affairs
if I could compass the
\$15,000.⁰⁰ to place our
boys buildings in permanent
and best shape for doing
our work well. That wd
establish us once and
again against Cavil.
