

U. S.

Indian Industrial School,

Carlisle, Pa.,

July 15 1884

My dear Doctor:

Owing to the delay of Congress on App^l Bills, I did not get assurance of money until yesterday. Dr McCauley was going to New York and I thought I would go over and see you and plan for the trip, for the Doctor is inclined to go along. I failed to get response to my telegram so opine that you are away from home. I can start on the 28th or as soon after as you like not later than Aug. 4th. I shall get passes for us and so lessen the expenses. You can do me a great service for the school in helping to select healthy children, and for yourself I can promise you a visit to the two tribes whom I think most interesting of any we have. If you have doubt about going I would rather come

and talk it over with you before having
you determine against it.

We shall need three to four weeks.
I would like to stop a few days at
the Las Vegas ^{now} Hot Springs, and I
think you would too. It is about all
the rest I anticipate this year.

You know that Dr. McCauley is
Pres. of our Dickinson College.

Affectionately Yours

R. H. Pratt

Dr. Agnew

Please write or telegraph, if
I shall come over.
