

Indian Industrial School,

Carlisle, Pa.,

Feb 25th 1885

My dear friend-

Not having
your good company I did
not start south. If I do
go it will be towards the
middle of March. I fear
now I shall not go, and
will reserve my absence
for a good one this
summer which shall take
me through the Yellowstone
Park.

I have been having our
boys make Mrs Agnew a

set of Harness for that
Marsh Tackey, and some ^{other}
little evidences of their
skill in the various depts.
They will go over Friday
or Saturday.

My health is not at all
satisfactory, but as nearly
every one is grunting, I
think maybe I am not
exceptional.

As the day for changes
draws near my concern for
a valiant head for the Int.
Dept. increases. Mr. Humman
is mentioned most. It seems
to me one of the best auguries
of a good strong honest admin.

istation of the most complex
and opportunity giving Bureau
where he is named while
I hold my breath when some
other names are mentioned.

The man who manages the
Interior Dept well should
know the whole country and
its needs not less than
the Post himself. Thurman
is that man. No other whose
name I see in that connexion
is. Mr Thurman belongs to
the whole country and not to
Ohio. Because Money and
intrigue have captured that
State in some of its most
important National representations
it does not necessitate that the
nation should also be made
to suffer through them. Judge

Linnaeus name will live
with the Country's History.
While those who have maligned
him will not long be mentioned.

Mr. Cleveland will show
his greatness if he overrides
the pressure of polluted politics
in Ohio and takes the
greatest and cleanest
man of them all into his
Councils.

The same matter pendg.
I go to Wash^g tomorrow.

Affectionately yours
R. H. Hall
