

Indian Industrial School,

Carlisle, Pa., March 21<sup>st</sup> 1885

My dear friend -

We shall be very  
very glad to see you and  
Mrs. Agnew, and I will go  
to Washington if you wish.

As may be determined by  
those in power, I can leave  
or remain at Carlisle with  
equanimity, and I have had  
no desire for Haworth's place.

My thought was that delay a  
few weeks or months to find  
the right man would be best  
and that in that time I  
could inaugurate system for  
the want of which the work  
just now is in great peril,

languishing to the death.

If we continue to move on this mountain of ignorance like a headless cable it will continue to laugh at and baffle us. The foundation for success is right organization. Just now every fellow hacks away on his own line, or unaccountably begins and abandons an excavation. I can help any good man who may be appointed Supt. but I am getting quite uncertain of my own 'stick to it' if weakness and ignorance is to manage for us much longer.

I thought Mammou wanted the Surveyor Genl. office for N.M. His range of application

if nothing else, will probably  
nullify all his efforts. You  
know better than I do how  
to answer the appeal.

Cordially and faithfully  
Yours

R. H. Pratt

My dear friend-

We shall be very very glad to see you and Mrs. Agnew, and I will go to Washington if you wish.

As may be determined by those in power, I can leave or remain at Carlisle with equanimity, and I have had no desire for Haworth's place.

My thought was that delay a few weeks or months to find the right man would be best and that in that time I could inaugurate system, for the want of which the work just now is in great peril,

languishing to the death.

If we continue to move on this mountain of ignorance like a headless rabble it will continue to laugh at and baffle us. The foundation for success is right organization. Just now every fellow hacks away on his own line, or annually begins and abandons an excavation. I can help any good man who may be appointed Supt. but I am getting quite uncertain of my own stick to it; if weakness and ignorance is to manage for us much longer.

I thought Mamron wanted the Surveyor Genls office for N.M. His range of application

if nothing else, will probably nullify all his efforts. You know better than I do how to answer the appeal.

Cordially and faithfully  
Yours,
