FEB 21 1922

War Dept., S.G.O., February 21, 1922 - To the Assistant and Chief Clerk, War Department, Washington, D.C.

1. Information on file in this office indicates that George Foulk was employed as Teamster in the Interior Department, for duty at the Indian School, Carlisle, Pennsylvania, from April 1, 1882 to October 15, 1918. When the Indian School was taken over by the War Department for use as U.S. Army General Hospital No. 31, Mr. Foulk, with other employees of the Indian School, was transferred to the Medical Department at large. Authority for his transfer was contained in the Department's instrument, dated October 7, 1918, and the transfer became effective October 16, 1918. For some reason, not of record, Mr. Foulk was reported to the Department as a Laborer and the instrument referred to accordingly authorized his transfer under that designation. General Hospital No. 31 was closed as such on June 30, 1920, and on July 1, 1920 the Medical Field Service School, Carlisle Barracks, Pennsylvania, was established at the same place. This change in the character of the institution did not affect Mr. Foulk.

2. When the Retirement Act of May 22, 1920, became effective deductions in favor of the retirement and disability fund were erroneously made from Mr. Foulk's pay, it not being understood at the School that the position of Laborer was unclassified and that persons employed under that designation were therefore not eligible to retirement. In view of Mr. Foulk's long service and good record, and in order that he might not be deprived of the benefits of the Retirement Act in his declining years, this office, as a matter of simple justice, by its second indorsement of December 1, 1921, recommended that his designation be changed from Laborer to Teamster. This was approved in the Department's letter hither, dated December 3, 1921.

3. Notwithstanding the fact that deductions have previously been deposited to the credit of the retirement and disability fund (and have not been refunded to Mr. Foulk) an "Application for Service Credit," Bureau of Pensions form 3-R 32, is forwarded herewith on the theory that this form is necessary to complete the record in Mr. Foulk's case. If other evidence is necessary it will be furnished upon the receipt of advice.

4. In view of the statements contained in the basic letter and certificate from the attending physician, it is believed that Mr. Foulk's condition is such as would warrant his retirement and it is therefore recommended that he be retired for total disability in accordance with the provisions of Section 5 of the Act of May 22, 1920. There is also forwarded herewith an "Application for Retirement from the Civil Service on Account of Total Disability," Bureau of Pensions form 3-R 4.

RECORD COPY, S.G.O.

Report upon Claim No. R 8100
Retirement Act of May 22, 1920.

Mr. Foull was appointed as teamster under the Interior Department at Carlisle, Pennsylvania, and was classified by the revision of the rules on May 6, 1896. He was transferred on October 16, 1918, to the Medical Department at Large, War Department, Carlisle, Pennsylvania, as a laborer at \$660, his duties being those of a stable man caring for public animals.

Mr. Foull is not entitled to retirement upon annuity at this time, for the reason that the position of laborer or stable man caring for public animals in the Medical Department at Large, is in the unclassified service, for which reason Mr. Foull is not subject to the provisions of the Retirement Act.

He is eligible for retransfer to his former position of teamster in the classified service, in which case he would immediately become subject to the deductions under the Retirement Act, and upon reaching the age of retirement or upon becoming totally disabled, he would be eligible for retirement upon annuity.

A teamster is not a mechanic within the meaning of the word as it occurs in the Retirement Act, and the retirement age of a teamster is therefore seventy and not sixty-five. The statement is noted that Foull reached the age of sixty-five on July 28, 1921. That being the case, he will not reach the age of retirement until July 28, 1926, when he will be seventy years of age.

If it is deemed advisable by the War Department that Mr. Foull apply for retirement at this time on account of total disability, he should be retransferred from his present unclassified position to his classified position of teamster.

In his present unclassified position, Mr. Foull is not subject to automatic retirement at the age of seventy, but may be retained indefinitely. Upon reaching the age of seventy or any other greater age, he may be retransferred to his classified position of teamster, and may immediately make application for retirement upon annuity.

A copy of this letter has been transmitted to the Secretary of War.

War Dept. S.G.O., December 15, 1921. - To the Commandant, Field Service School, Carlisle Barracks, Pa.

1. Upon receipt by this office of a copy of letter of November 23, 1921, U.S. Civil Service Commission to the Commissioner of Pensions, recommendation was made by second indorsement, December 1, 1921, this office, to the Assistant and Chief Clerk, War Department, for change in designation of George Foulke, from Laborer to Teamster. A copy of that correspondence is forwarded for the Commandant's information.

2. It will be noted that Foulke had no status for retirement while employed under the designation of Laborer, but that the designation of Teamster, under which he was originally appointed, and by which he was known during the period he was employed by the Department of the Interior, is in the classified service. Inasmuch as deductions for the Retirement Fund were erroneously made from his pay while he was an unclassified employee and, in the event that he should be retained in the service until such time as he becomes eligible for retirement, it has been considered to be desirable that his designation should be changed to one under which he would legitimately be entitled to retirement.

3. It is requested that report showing the date upon which the employee's designation is changed be promptly forwarded to this office by indorsement hereon.

THIS DUPLICATE SHEET MAY BE PREPARED BY CARBON PROCESS.

GENERAL INSTRUCTIONS.

To the Applicant:

1. All blank spaces on first page must be properly filled by the applicant. Neglect to do so may necessitate the return of the application for completion, and consequently payment will be delayed.

2. Give complete description of the position filled, and the executive department, branch, or independent office where employed. If place of employment was outside of Washington, D. C., the locality must be shown.

3. Insert in the schedule of employment only the exact period of service for which refund is claimed. Do not include any period of service prior to August 1, 1920.

4. Sign your name in full, letter for letter, as it appeared on the rolls of the office where employed. In the case of a woman who has married since enrollment, both the maiden name and the name since marriage must be signed.

5. Applications must be filled in with ink, or preferably be typewritten. Signatures and addresses must be legibly written, and it is recommended that in addition to the written signature the name of the applicant be also printed or typewritten.

6. Checks will not be mailed in care of another person, a firm, or a corporation. Give full and complete local post-office address to which you desire your check mailed.

7. In case an employee has served in two or more administrative offices a separate application must be made for each service for which refund is claimed and the applications modified accordingly.

8. After completing the first page, the application must be forwarded to the head of the department, branch, or independent office concerned, that the required certificate may be furnished and the application transmitted to the Civil Service Commission.

To the Administrative Officer:

9. The required certificate in duplicate of the applicant's service record may be prepared and signed by the head of the department, bureau, branch, or independent establishment, or by any officer designated for that purpose who has custody of the official records.

10. For the purpose of identification it is requested that a complete description of the position filled and the place of employment be stated in the certificate.

11. A statement by fiscal years of the aggregate time and base pay lost, and the rate of compensation involved, will be required in every case. In all cases of intermittent employment, and where the compensation has been on a daily, hourly, or piecework basis, a statement of actual deductions made from earnings during each fiscal year will be required.

12. If the spaces provided for tabulation in the certificate are not sufficient, a complete statement in duplicate on separate sheets should be prepared, properly certified, and attached to the certificate.

This is to certify that the employee of the Medical Department at Large, on duty at Army General Hospital No. 31, Carlisle, Pennsylvania, whose name is listed below, has demonstrated such ability and qualifications in connection with the performance of duties assigned him as will justify the allowance to him of the increase of compensation provided for by Section 7 of the Act of March 1, 1919, such increase to commence July 1, 1919. Those whose rates of pay exceed \$1000 per annum will have been continuously in the executive civil service of the Government six months immediately preceding the date on which the increase of compensation is recommended to take effect, except in the following cases:

1. Those who have been specifically exempted by the Secretary of War from such requirement.
2. Those who have been reinstated after honorable discharge from the military service and are therefore exempted from such requirement by the Department's order of Nov. 4, 1919, directing that the period of military service shall be counted in calculating the six months' Government service.

War Dept., S.G.O., Dec. 11, 1919. - To the Commanding Officer, U.S.A. General Hospital No. 31, Carlisle, Pennsylvania.

1. Section 7 of the Act of March 1, 1919, gives a mandatory right, in certain cases, of employees to the increase of compensation, while in other cases, certification must be made to the Secretary of War and such certificate approved before payment of the "bonus" can be made. Mr. Foulke was in the latter class.

2. The Commanding Officer did not have authority to pay the increase of compensation to Mr. Foulke or to any employee not having a statutory right to the bonus. In view of the fact that the bonus has been granted to this employee, this office is willing to make recommendation to the Secretary of War that the action of the Commanding Officer be confirmed, with the understanding that, in the future, recommendation will be made to this office and no action had thereon until notification that the payment of the bonus has been approved.

3. An acknowledgement of the receipt of this communication is desired.

To: The Surgeon General of the Army, Washington, D.C.

1. Neither in this case or in any other has the commanding officer assumed authority to pay increased compensation to a civilian employee. This office has hereby recommended that Mr. Foulke be given the increased compensation, and if it is possible for same to be retroactive, that it be effective as of July 1, 1919.

War Dept., S.G.O., Dec. 20, 1919. - To the Commanding Officer, General Hospital No. 31, Carlisle, Pa.

1. Recommendation has been made to the Secretary of War that the increase of compensation be made effective in the case of George Foulke as of July 1, 1919.

2. The wording of paragraph 2 was construed in this office as giving notice that the Commanding Officer had granted the increase of compensation as of July 1, however, a perusal of the monthly report of disbursements is convincing evidence that this office was in error in that assumption.
