My dear Mr. Rupley:

In further reference to your letter of October 21 in regard to the conduct of runaway pupils from the Carlisle School, you are advised that the Superintendent submitted his report on this matter November 7, in which he says that of the eight boys mentioned as having deserted, four of them returned to the school the day after they ran away of their own volition, three others gave themselves up in Chester, N. Y. and asked to be returned to the school; the eighth boy was returned to the school from Altoona.

Unfortunately there are runaway boys at every Indian School. This is one of the most difficult matters the Office has to contend with. Superintendents have been urged to give special attention to the discipline of pupils. It is believed Supt. Friedman will exercise every effort to avoid a re-occurrence of the incident which was the cause of your complaint.

Very truly yours,

Commissioner.

My dear Mr. Friedman:

The Office has received your letter of November 7, with newspaper clipping, in reference to a complaint made by Hon. Arthur R. Rupley, House of Representatives, concerning the eight runaway boys from your school during the past month.

In connection with this incident, the Office has a communication from Hon. A. Dear Sir:-

We have been informed that charges have been preferred against Mr. M. Friedman, Supt. of the Carlisle Indian School, for inefficiency of discipline, and it gives us pleasure to say a good word in his behalf.

We have been residents of Carlisle and have been in business here since before the Indian School was established, and in our opinion the school is fully up to the high standard which it has always attained.

Dear Sir,

I Understand that there are charges preferred against the present Superintendent of the Carlisle Indian School,

Mr Moses Fredman for

Inifitent Disiplin.

I Have been A lifelong resident of this Town and have been acquainted with the Indian school since its Inception. And never during its history has the managment and the disciplin of the school been better than under the present Superintendent. During my time as Burgess of Carlisle. There has been no call at any time to Censure or arrest any of the studenta for any thing. In the earlier years Drunkenness was A Common occurence. Since Mr Fredman has been in charge I have no Knowledge either in A private or Public Capasity of occurences of this kind, The general condition of the students under his charge is of the best. The Sanitary Surroundings of the School as well as the health of the Pupils are such that the fepartment should hold up the school under his managment as an EXAMPLE to other Schools, I can most heartily ~~XX~~ COMMEND his Managment and Disiplin. And in closeing can TRUTHFULLY say that any Charges that may have been made Were made MALICIOUSLY and UNTRUTHFULLY,

HONORABLE CATO SELLS,
Commissioner of Indian Affairs,
Washington, D. C.

My dear sir:-

I am addressing you in reference to the investigation of the discipline at the Indian School at this place. I understand that charges have been preferred by the Honorable Arthur R. Rupley, Congressman at Large, residing at this place, against Moses Friedman, the Superintendent of the School.

Being the United States Commissioner of this District, I probably am in a position to give valuable information regarding the matter.

I was appointed Commissioner of this District in 1908 about the time of the appointment of Mr. Friedman as Superintendent of the Carlisle Indian School, and am the Commissioner at the present time. Before 1908 the discipline at the school was very lax, especially in regard to the sale of liquor to the boys.

About the only cases that are brought before me are the ones concerning the Indians, the wards of the Government.

I can safely say that Mr. Friedman tried in every way before the state authorities to prevent the sale of intoxicants to the Indians, but finding that he could more successfully accomplish his purpose through the United States Courts and because of the greater penalty imposed by the latter, he resorted to them.

Hon. Cato Sells-#2

Paul Willis
Attorney at Law
Carlisle, Pennsylvania

He then, I believe, through the Department, secured the services of detectives, who came to Carlisle, and a number of cases were brought before me as Commissioner, and the prisoners held for Court, and finally sentenced.

I believe that Mr. Friedman has broken up the sale of intoxicants to the Indians, and that the present discipline at the school is of a higher grade than heretofore.

Very respectfully,

U.S. Commissioner.
Middle District of Penna.

Carlisle, Pa., November 10, 1913.

To the

Hon. Cato Sells,

Commissioner of Indian Affairs,

Washington, D. C.

My dear Sir:-

Understanding that a letter from Hon. Arthur R. Rupley, Representative at large from Pennsylvania, and a resident of our town has been filed in your department reflecting upon the discipline at the Carlisle Indian School, we, residents of Carlisle take this method of saying, that to our knowledge the discipline at said School has not been made the subject of newspaper or general comment in our town.

Mr. Friedman, the Superintendent, has elevated the social tone, increased the moral and educational standard so that the school is the pride of this community. The general well behavior of the children when in public is the subject of favorable comment.

The task of the Superintendent at this School is not an easy one.

We desire therefore to bear testimony to the ability, devotion and skill with which Mr. Friedman has met this task, and in our judgment has maintained the discipline, morals and educational value of the School at a high standard.

My dear Sir:

In connection with the trifling matter at the Carlisle Indian School brought to your attention through a newspaper clipping, telling about several boys who recently ran away from the school, I want to give you a word of information in regard to the discipline now maintained at this Institution. When Mr. Friedman took charge of the school he found it in many respects in a deplorable condition. Since his administration began there has been a constant improvement, and I take great pleasure in bearing testimony to the excellent discipline now maintained. I live on the edge of Carlisle; my property is across from the Indian School, and I have every opportunity to observe the conduct of the Indian students.

I have fortunately had an opportunity to observe Mr. Friedman and his conduct to the school since he has been here and in doing this compare it with some other Institutions of a similar nature. Judging him from the standpoint of knowledge gained in connection with men doing this similar work in other places, I feel very sure in stating to you that he is well qualified to handle the Indians. He is a scholarly man, has given close attention to Indian traits and characteristics, and has a large fund of detailed information in regard to different Tribes, their capabilities, accomplishments and traits. ment of the Carlisle Indian School, and indeed of the people in charge of all the Indian Schools, I feel confident in saying that he is better qualified to take up the work and carry it along effectively to the best interests of the Indians.

I sincerely trust that the bringing of the complaint in this newspaper clipping to your attention will not result in anything to the disadvantage of Mr. Friedman or to any movement tending to replace him. It will be impossible to obtain an abler man to direct this School. We, in Carlisle who are interested in Indian education feel that no school can possibly do better work than this school, and are anxious to see it always in the hands of men who can do the greatest good for the Indians.

My Dear Mr. Commissioner;

For the past fourteen years I have been connected with the U.S. Indian Industrial School at this place as pastor of a large church with a number of pupils affiliated with the church. For ten years I was the regular Chaplain and preached to all Protestant and non-church members at 3:15 P.M. in the School Auditorium.

For three years I preached every Sunday afternoon to all the students Roman Catholic and Protestant.

I performed this service under Brigadier Gen. R.H. Pratt, under the Special agent who served before the appointment of Major W.A. Mercer, under Major Mercer, and under the Hon. M. Friedman present Supt.

I also visited seven Reservation schools and have seen personally hundreds of Indians on the Reservations and those who have been students here at Carlisle.

I say this to show that I am qualified to speak at this time as to the conducting and administering of the affairs of the school. My knowledge comes from the inside.

I say unhesitatingly and fearlessly that the present administration of the school under Supt. Friedman, is far in advance of anything I ever saw on a Reservation or in some of the non-reservation schools of the West.

That the present management is in many respects far in advance of the management under the former men.

Referring to the matter of discipline at the Carlisle Indian School now before you, resulting from the recent episode of a few runaway boys,--I desire to bear testimony to the fact that the discipline of the school under Mr. Friedman is unquestionable good, and has not been subject to newspaper, or other comment.

It is nothing new for dissatisfied boys to try to get away, that has happened under former superintendents as well.

This school is the pride of the community, and Mr. Friedman maintains a high standard of discipline, of morals and educational value thereat.

In answer to your letter of October twenty-ninth, with reference to a complaint made by Congressman Arthur R. Rupley, of Carlisle, in which he sends a clipping concerning eight runaway boys, I respectfully report as follows:

Of the eight boys mentioned as having deserted, four of them returned, the day after they deserted, to the school, of their own volition; three others gave themselves up in Chester, N. Y., and asked to be returned to the school, as per clipping herewith enclosed; the eighth boy was returned to the school from Altoona.

There have always been runaway boys at this school, and there are runaway boys in every school in the country. It is a well known fact, however, that there are a smaller number of runaway boys at this school than in any other large school in the Service.

The discipline of the school has always been the subject of favorable comment by the citizens of Carlisle, and the Office will, no doubt, hear from the reputable citizens of Carlisle with reference to the statement made by Mr. Rupley.

So that the records may be complete I simply desire to add that I have made a strong effort to combat the liquor traffic, and have brought the offenders before the local and the Federal Courts with such regularity that the practice of furnishing liquor to our students has practically been stamped out. These "bootleggers" and dive-keepers were brought before the local Court and the Federal Court and were generally defended by Mr. Rupley. As far as I can recall, every case that he defended was found guilty by the Court. I also desire to add that in all the five and one-half years that I have been at Carlisle, I do not recall that Mr. Rupley has ever visited the school, and hence he can have no first hand information with reference to its activities.

INDIAN BOYS ESCAPE FROM CARLISLE SCHOOL

Special Dispatch to The Patriot

Mechanicsburg, Oct. 20—The police of the borough were notified shortly afternoon today to watch for eight Indian youths that had escaped from the Carlisle Indian School. A telephone message was received here stating that the boys when last seen were headed this way. In the crowd were four boys about 20 years old, all of a light complexion. The other four were about 17 and of dark complexion. Up until late tonight nothing had been seen of them, and it is believed that they passed to the north of the town, by way of the pike to Harrisburg.

CARLISLE REDS ARE CAPTURED AT CHESTER

FILED BY C. P. F.

Chester, Oct. 25, (Special)—"Lo the poor Indian." They descended on Chester Friday afternoon. By "they" we mean three of the Redmen's Tribe. Their names—well their real names could not be pronounced, even if we wrote them; so we'll call them Johnny Longface, Robert Mathair and Jim Bluenose. They had been pupils at the Carlisle Indian School at Carlisle Pa. Finding the days long and arduous with work and study, the three decided to leave. Last Tuesday, they made good their decision, and started on a trail which lead to Chester. Why, Chester, is only because they became too foot-sore, weary and hungry to travel further. They first applied to Joseph Hughes for food and drink, and after hearing their story, supplied the necessary requisites. The three then decided that the school was a far more hospitable place than the cold, sleek world, and expressed a desire to return. They were, however, without the necessary coin, so the village authorities gave them accommodations in the village "Tombs" until a representative of the school could come after them. Sunday morning the representative arrived and took the three members of the Red tribe back with him to Carlisle. So ended the first visitation of the Redskins to Chester, since the days of Washington and William Yelverton.
