Carlisle

July. 28/81

Refs. report of Mr.

C. H. Hepburn. Et

animation of Osage  
Children

file

Cook

Indian Training School,  
Carlisle, Pa.

Feb. 28. 1881.

Respectfully forwarded to  
the Honorable the Commr.  
of Indian Affairs for his  
information.

**W. H. Pratt**  
1st Lieut. 10<sup>th</sup> Cav.  
In charge.

These children are  
quite satisfactory  
except in the proportion  
of the sexes. No more  
boys should be sent  
than girls.

Indian Training School,  
Carlisle, Pa.  
Feb. 28, 1881.

Dr. G. H. Hepburn.

Reports examination of  
Seage children.

Cook

Very yours. She is also having strength an  
attack of Chlora Pan, which causes no

United States Indian Service,  
Carlisle Barracks, Pa. Agency,  
Indian Training School, July 28, 1881.

To

R. H. Pratt,

1<sup>st</sup> Lt. 10<sup>th</sup> Cav. In Charge.

I have the honor  
to report that I have examined the Osage  
scholars recently arrived and find them  
all physically sound, with the exception of  
Herbert, who has slight inflammation of the  
eyes - granular lids.

Fred - suffering from same complaint, but  
a worse case.

Josephine Prior, same trouble, at present not  
very severe. She is also passing through an  
attack of Chicken Pox, which causes no  
apparent constitutional disturbance.

Metopa, I believe from her general  
appearance to be profuse, although  
there are, at present, none of the  
marked signs of this affection ap-

=parent.

I believe them all to be  
mentally sound.

Very Respectfully,  
C. H. Hepburn  
Physician
