To R. H. Pratt,

pt Lt. 10th Cav. In charge,

I have the honor to report
that I have examined the scholars recently arrived
from Wyoming Territory & find them physically sound.
One - Sumner - has had enlargement of the
glands of the neck - most likely scrofulous - The
scars alone are visible. There is no sign of any
such enlargement at present & the boy seems
robust & healthy.

I believe them all to be mentally sound.

Very respectfully ve,

(Signed) E. H. Wickham,
