United States Indian Service,**TRAINING SCHOOL FOR INDIAN YOUTH,**

CARLISLE BARRACKS,

Carlisle, Pa., August 18th 1883.

To the Honorable,
The Commissioner of Indian Affairs,
Sir:

I wish to construct a small house for my disciplinarian, between the hospital and the small boys' quarters. This will vacate for me room in the boys' quarters for additional pupils, & you will have the advantage of placing him at a point on the grounds where he can best oversee his work. ~~I enclose herein the plan for the back part of the house.~~ I propose to swing around an old building that stands on the ground designed to be used, & make use of that as dining room & kitchen. For the front part I enclose herewith a draft; the building to be 32 by 20 feet,

two stories.

I estimate the cost, including the repairs and moving of the back building at about \$750.

As I have an abundance of work for my carpenter and his apprentices in the necessary repairs and changes that we need to make this fall, I would like to advertise for this new building, and have it done by contract, the cost to come from apt appropriation for Carlisle School.

Very respectfully,

R. H. Pratt

Capt. and Supt.
