Dear Sir.

I would be glad if the transportation money (\$7,000) asked in my letter of the 5<sup>th</sup> could be hastened. I sent one of my teachers Miss Shields, to New Mexico with the returning pupils and she is at expense in her work. Our returned pupils have been a great incentive and she reports forty of the best youth of Laguna enrolled and asks that we accept that many from that village. Beona, Cochiti, Jemez and Sleta all promise delegations. Dr. Agnew of New York has promised to accompany me, and I wish to go after the party in the end of the month, stopping en-route to see the Osages. Very respectfully
