Carlisle, Pa., Sept. 3rd 1888.

To the Hon.

The Commis. of Indian Affairs,
Washington, D.C.

Sir:—

Enclosed herewith I forward an application from a Menominee boy, a former scholar of this school, who desires to enter again. Charley first came to Carlisle in Nov. 1880 and remained till June 1884, and by the record should now be 17 years of age.

I regard his application with favor and would be willing to receive him at any time, should you deem it desirable to grant his request or to authorize a small party of 8 or 10 from that agency for this School.

Very Respy.

Sir:

A letter I send to you sometime ago. And a question I asked you if I could not go to your school. And ask you the same thing again. I am very anxious to go back to the school where I read my books and how to read ^{the} white. it was a favorite to my youth. And Oh I mind to go to school and get all the education that I can get in my head. My Cousin Peter Keewo-ta-wa-py wishes to go to school. And we ask you to help us the best you can do ask the department, and tell that we are anxious to go to the Indian Training School. And we will
