INDIAN OFFICE.

Inclos No. /

1890.

Indian Industrial School,

Carlisle, Pa.

July 30th 1890.

Capt R. H. Pratt

Sir,

In compliance with a suggestion of the Hon. Commissioner of Indian Affairs that propositions as to additions or changes in estimates for medical supplies - would be considered, I submit the following.

That "Belladonna Alcoholic Ext" be omitted from the list; in as much as we have now on the list - "Belladonna Fld. Ext." and "Belladonna Tinct." which sufficiently represent the medicinal virtues of the drug.

That in the place of "Hyoscyamus Alcoholic Ext" "Hyoscyamus Fld. Ext" be substituted - as being more readily used in compounding medicines.

That a good article of Whiskey be added to the Hospital Stores - This may be used as a substitute for brandy or other form of Spirits, in such conditions as may indicate their use. This -

Supply would be especially beneficial at those schools and Agencies where Hospitals are established - as the dispensing would be under the immediate supervision of physicians or trained nurses. There are times in the course of many diseases - especially of the acute form - where the judicious use of such a Stimulant might enable the physician to carry the patient safely beyond the period of depression - when otherwise life might have been jeopardized.

That the following articles be added to the list of Medical and Hospital Supplies.

Orig.

✓

Amyl Nitrite

✓

Acid Hydrocyanic Dil. U.S. "

✓
