The Honorable Commissioner of Indian Affairs.

Sir;-- I have the honor to forward the accompanying list of children for transfer, from the Flambeau reservation, La Pointe Agency, Wisconsin.

There is no Agency or other Physician at or near there. I have seen, examined, and talked with all on the list, and know that they are healthy, strong looking boys and girls, As to scholarship, excepting Sammy and Aleck Pourport, they have none or next to none. Some of them are merely Camp Indians, dirty and unkempt. If the large training schools do not want them the small ones will be very glad to get them.

My instructions are to recommend for transfer from the day schools to the reservation boarding schools, and from the reservation boarding schools to the non-reservation training schools; but I know that in some instances at least, the representatives of the large training schools pick up all the y can get. My Flambeau boys and girls will compare well with some I saw at Ginod, or (perhaps) Haskell.

I have written "school preferred, Carlisle", because Gantier named Carlisle, and of course all the others followed his choice. I hope Captain Pratt may think favorably enough of this Flambeau list to take it, and as many more as I can add to it.

Charles Gantier is a young man of fairly good character He gets drunk once in a while, but not, I am told, on the reservation. Mr. and Mrs. Sullivan like him, and would like to see him go away to school. I know of my own knowledge that he is of an amiable disposition, and would be a help, rather than a hindrance in any school. Besides, the going of many others depends on his going.

Charles Thompson has a chronic running sore on his ankle. He uses crutches. Perhaps with proper treatment he could be cured. He is very quiet and studious in school, (Mrs. Sullivan's.) He is anxious to be allowed to go away, and if he goes, his brother John, (I5) and his step-sister, Mary Root, (I5) will probably go too.

I was advised while at Flambeau, that if Charles Gantier and three or four others adhered, that in all probability all the rest would, and that I could add, perhaps, I5 or 20 more when the time came for starting.

I got 27 adult Indians and about 20 young Indians, together while at Flambeau, and we held a council and talked school. Both chiefs and the venerable speaker, orator, and mouth-piece of that Band, "Metwaozin", were present. They all spoke strongly in favor of schools.

All of which is respectfully submitted.

T. S. Ansley.
