Dear Friend:-

After I write you that last letter I had a talk with Spay and he had heard that there was a chance for me to go - so he goes and tells the Supt. about it and he brought me word that if the Com Armstrong was willing for me to go and said that I could go he would send me at once he said that I should not stay till the last of June so try your best to get the Com. to let me go I heard from home and Mother is very low so the sooner I get home so much the better for her tell the Com to say that I can go - tell him I want to go home and help her in her spring work tell him to send me word at once that I can go I am in such distress I do not know what to do may be grant this request is my prayer I must go and help her show him this or tell him as soon as you get this.

answer at once Your Friend Sibaald Smith
