Oneida, Wis.,  
March 22, 1895.

To Mr. H. N. Hailman,  
Dear Sir, -

I am  
sorry that there should  
have been so much  
trouble about Purcell's  
coming home.

I think the Agent  
Savage must have  
made a mistake  
about my not request-  
ing my son to come  
home. I and my wife  
sent our daughter  
to Mr Burleson with  
the letters that Capt.

Pratt wrote to us to show that we did want our son to come home and visit us. He has been away so long and we would like to see him. It is not because we do not like to have our children go to school. We like to have our children go to school and get good education.

Our son has been away since he was nine years old and he will be at barile

six years this coming August. I should like to see if he has made progress since he has been there.

I think the Agent must have made a mistake, when he asked me if I requested Mr. Burleson to write and have my son come home. It was my request but I did not go there my self but instead of my going there I sent my daughter who took the letters there

and have Mr Burleson write

I did give Mr Burleson authority to write about this matter through my daughter.

I should like to have the two letters that Mr. Burleson sent to you sent back to me.

Yours respectfully,  
John D. Powell.
