SPECIAL

Department of the Interior,

INDIAN SCHOOL SERVICE.

OFFICE OF SUPERINTENDENT,

Carlisle, Pa., Feb. 15, 1900.

To The Honorable,

The Commissioner of Indian Affairs,

Washington, D. C.

Sir :-

The increase in my employe force and their families and the transfer of some who formerly lived in town to the schoolgrounds renders necessary additional quarters. I find I shall have about \$20000 left for building. A good part of this I propose to put into the heating and electric light plant, but the necessity for employes' quarters requires that I use part for that. Mr. Bakeless, who has had charge of the school work here for the past seven years and whose services are indispensable is deserving of better accommodations for his family than I can give him in the buildings now available. Dr. Eastman, who has come to us with his family and who has charge of our outing, also requires additional room. I propose to erect a double-dwelling on the plan of the rough sketch enclosed, to be of frame construction and conform in design to the adjacent buildings ; to be 42' -3" x 47' -3"; two stories, each ten feet high; Four rooms on the first floor and three rooms, hall, and bathroom on the second floor. I will do a very large part of the work with my own force, but ^{for} the masonry, stone and bricklaying, and the plastering I shall need to have skilled mechanics.

I respectfully request authority to advertise and contract
