## INDIAN SCHOOL SERVICE,

OFFICE OF SUPERINTENDENT.

CARLISLE, PA., Aug. 7, 1900.

The Honorable,  
The Commissioner of Indian Affairs,  
Washington, D. C.

Sir:-

Mr. Geo. W. Kemp who has been harness-maker at this school for sixteen years is sixty-three years of age, has become so deaf that he hears nothing but what is spoken very loudly in his ear, and since his wife died a year ago his habits have been increasingly against the interest of the school. He is now on a leave of absence which expires the 25th, inst. Justice to our work here requires that Mr. Kemp's services be ended. I have accordingly notified him that at the expiration of his leave, his services will no longer be needed and request your confirmation of my action.

I have been looking some time for a person to fill his place and found it exceedingly difficult to find a man free from objectionable habits and at the same time capable both to do and manage work and instruct the boys. I think I have found such a person in Mr. Milton I. Zeigler, whose application together with his most satisfactory indorsements, I forward herewith, and request that he be appointed, temporarily, in order that we may test him and if he proves satisfactory then to take such further action as Civil Service rules require.

Very respectfully,

Major 10th, Cavalry, Supt.

Commissioner of Indian Affairs.  
Washington D.C.

Dear Sir:-

I am an applicant  
for the position of instructor in  
the Harness department at the  
Carlisle Industrial School

I have filled out & had filled  
out the proper papers, which are  
now in the hands of Major  
R. H. Pratt, Superintendent  
of the Carlisle Industrial School.  
I have had from 12 to 13 years  
experience in the Saddle & Harness  
business I served a 3 year apprenticeship  
worked something over 4 year  
journey work, & was in business  
5 years for my self, which

gave me good and valuable  
experience in learning how  
to cut and fit economically  
I always made a success out  
of any of my undertakings in  
their business. I worked for Mr  
John Lindner for a number  
of years at different times  
where there was employed from  
2 to 3 hundred hands, which gave  
me quite an experience in learn-  
ing the different dispositions of  
people which I consider of some  
value in the position I seek

Then in my experience in traveling  
for Zeyler Wilson Co of Lemont,  
Ill. I got much larger experience  
in learning dispositions I traveled  
through 11 different states in the Union  
and in all I feel fully qualified for  
the position I am an applicant for

If there is any thing else  
you would like to know  
Concerning my ability & experience  
in the line of ~~Business~~ making  
Kindly write me just what you  
would like to know & I will  
furnish any information I can

Yours Very Respectfully  
Milton J. Zeigler,

## TO APPLICANTS.

Answer every question definitely, whether it seems applicable to the position you seek or not, with the exception of those specially designated.

This blank application is as nearly general as can be made to apply to the qualifications of persons seeking employment in the Indian School Service.

They must have at least a fair English education, and be able to speak and write the English language fluently. They should be earnest, conscientious, patient, persevering, kindly disposed, and willing. Conduct, associates, and reputation must be above reproach. Watchful, but not suspicious; attentive to details, but not given to fault-finding—they should also be courteous and polite in all relations with associate employes and pupils.

The female employes are the guardians of the female pupils and must have their confidence and esteem, and so direct their work that they shall not only be well trained in household duties, but elevated in moral character and educated to self-respect, neatness, and industry.

The male industrial instructors are charged with the proper development of the character of the boys, and should possess their respect and be examples to them of all that is best in upright manhood, and be careful to teach them habits of diligence, accuracy, attention to business, the value of time and money, while instructing them in the industries to which they must look for employment after leaving school.

Persons entering the Indian Service must understand when they accept appointment that hard work is to be performed; that long hours of service are required; that in the nature of things every employe must be willing to work night or day if special emergencies arise; that the duties of an employe do not end arbitrarily at a given hour, but may be continued indefinitely; and that additional duties, or duties entirely different from those usually attaching to the position to which the employe is regularly assigned, may be required. There is no room for shirks or unwilling workers in the Indian School Service; and the man or woman who is too fastidious to assist in making a camp Indian child or youth tidy in appearance, too indifferent to participate in the general exercises of the school, too obstinate to yield to the judgment of those charged with directing the school work, should not enter it; for efficiency and success can come only to those who are interested in the education of the Indian, physically able for the arduous duties to be performed, and, above all else, willing to do whatever is necessary for the good of all concerned.

I have carefully read the above statements, and agree that if I am appointed it shall be upon the conditions outlined.

*Milton J. Zeigler,*

Answer to questions # 8

I have resided in Carlisle, Pa for the past 30 years, except for a few months at a time when I was out of town in the last 3 years of my experience with Zeyler, Wilson & Co. of Lemont, Ill. I worked in 97 & 98 for Mr John Linduz at Shoemaking, I earned from 50. to 75. per month working piece work Left in the best of terms & can go back any time I spent the past 3 years selling Cooking utensils for Zeyler Wilson & Co. of Lemont Ill. sold on commission made from 60. to 125.00 per month according to the luck I met. I made some harness for my

self, during dull seasons in  
the last 3 years while working  
for J. W. Co. I sold them  
what ever I could find a  
customer. I can work for J.  
W. Co. if I please we are on good  
terms. My reasons for wanting  
a position at the Indian School  
is on account of being able to be  
at home every night with my  
family as every good Husband  
should be. There is more money  
in traveling but I would rather  
take less than be away from home  
so much.

## IN GENERAL.

The within blank is as general as can be made to apply to the qualification of persons seeking employment in the Indian School Service. There are generally three classes of employes at Government boarding schools: Superintendents, teachers, and industrial instructors.

Good health and high moral character are prime requisites in all school employes.

**Superintendents** should be teachers of experience, with knowledge of farming, managing business affairs, and possess good executive ability as well as patience, perseverance, industry, conscience, and skill in directing the details of an extensive institution involving the expenditure of large sums of money and the performance of varied duties by both subordinate employes and pupils. A superintendent should be firm, kind, affable, considerate, and careful. Men wanting in conscience, industry, business acumen, and self control will not succeed, and should not enter the Indian School Service.

**Teachers** require all the rare qualifications incident to complete success in teaching white children in the public schools, and in addition, perfect health of body and mind, great patience, tireless perseverance, and above all a conscientious desire back of sustained effort for the physical, moral, and mental development of the Indian pupils committed to their care. They should be resolute, considerate, dignified, even-tempered, above reproach in personal character, discreet, willing to work, and ambitious to succeed.

**Industrial instructors** include matrons, seamstresses, cooks, laundresses, industrial teachers, farmers, and mechanics. Each of these must have at least a fair English education, and be able to speak and write the English language fluently. Each should be earnest, conscientious, patient, persevering, kindly disposed, and willing. Conduct, associates, and reputation must all be above reproach. Watchful, but not suspicious; attentive to details, but not given to fault-finding; they should also be courteous and polite in all relations with associate employes and pupils.
