Department of the Interior,
INDIAN SCHOOL SERVICE,

Carlisle, Pa., Jan. 30, 1901.

To The Honorable,
The Commissioner of Indian Affairs,
Washington, D. C.

Sir:-

On my Annual Estimate for 1902 which went to you on the 28th inst., I noted in the column of remarks against such articles as I thought should be purchased here, "Contract at Carlisle." I can purchase all these economically, and it will be much more satisfactory to do so because of prompt delivery here and the opportunity for selection of just the articles needed.

I therefore request authority to advertise and contract for them as last year. There are also a few items, which by reason of selection and to avoid insignificant contracts, as for salt, cordwood, which I deem it advisable to purchase in open market after the new fiscal year begins.

Every year the delay in sending our school-room supplies causes inconvenience and loss in that department which I wish might be overcome. I would be glad if that whole list might also be left to me for contract.

In order that these contract and open market articles referred to may come before you in concise form, I submit herewith full list of the articles. Viz:-
