Department of the Interior,  
INDIAN SCHOOL SERVICE,

Carlisle, Pa., Dec. 29, 1902.

To The Honorable,

The Commissioner of Indian Affairs,

Washington, D. C.

Sir :

I forward you the enclosed for such consideration as it is deemed worthy of. Seneca graduated here in 1900, was a good boy and pretty well equipped to look after anything in the steam-heating or blacksmith's line.

Very respectfully,

A handwritten signature in cursive script, appearing to read "R. H. Pratt". The signature is written in dark ink and is positioned to the right of the typed name.

Lt. Col. 15th Cavalry, Supt.

My dear Sir:-

Indian Industrial School,

Carlisle, Pa.

Dec. 29 1902

Pratt, W. Va.

W. C. Carver, Supt.

Letter of H. E. Wilson, Supt. at  
Ellenwood, N. Dak. concerning  
Isaac Seneca for engineer  
at his school.

Dec. 29 1902

at Carlisle, and a Graduate of Carlisle, 1900. For the position of  
custom, I wish you would at once recommend Isaac Seneca, now placed with  
If it is within your right and  
engineer at this school, at a salary of \$230. He now receives only \$200.  
and he fully proved himself capable of filling this position while  
with me at Carlisle. <sup>W. C.</sup> Thomas, of this agency, is willing  
that I should have my choice for an employe as engineer. If Mr. Seneca  
is a little rusty in this work, or even if he knows nothing about  
running an engine, he will be all right for the position, as the agency  
engineer can soon teach him to run it. His principal work will be  
repairing the water, gas, heating and sewer plants for which he is  
responsible. He will also be responsible for the work of his knowledge  
in the line of his trade, in doing the work for the school, as during  
certain seasons the other work will not occupy more than half of his  
time. He has been working one and one half years at a small salary and  
is now entitled to a promotion.

Yours most respectfully,

*[Signature]*  
Superintendent

INDIAN SCHOOL SERVICE,

Elbowoods, N. Dakota,

December 22, 1902.

Col. R. H. Pratt,

Carlisle Indian School, Pa.

My dear Sir:-

If it is within your right and custom, I wish you would at once recommend Isaac Seneca, now blacksmith at Cantonment, and a graduate of Carlisle, 1900, for the position of engineer at this school, at a salary of \$720. He now receives only \$480. and he fully proved himself capable of filling this position while with me at Cantonment. Indian <sup>Agt.</sup> Amzi W. Thomas, of this agency, is willing that I should have my choice for an employe as engineer. If Mr. Seneca is a little rusty in this work, or even if he knows nothing about running an engine, he will be all right for the position, as the agency engineer can soon teach him to run it. His principal work will be repairing the water, gas, heating and sewer plants for which he <sup>is</sup> amply qualified. He will also have an opportunity to keep up his knowledge in the line of his trade, in doing the work for the school, as during certain seasons the other work will not occupy more than half of his time. He has been working one and a half years at a small salary and is now entitled to a promotion.

Yours most respectfully,

*A. E. Wilson*  
-----  
Superintendent.
