Commissioner of Indian Affairs,

Sir:

Reference is made to your letter of April 28, 1917, in which you direct attention to that paragraph of the Declaration of Policy in the Administration of Indian Affairs which refers to Indian students who have completed the course of instruction in the Government schools, being declared competent.

In accordance with these directions I have the honor to report that Lena Parker, a $\frac{1}{2}$ blood Seneca Indian, 17 years of age, passed her examinations in nursing, in accordance with a Special Course.

Lena is the daughter of William and Lillian Els Parker of Versailles, N. Y. Her father is a farmer and he with her mother was educated at Carlisle. Her mother is dead. She has worked in all departments since coming to Carlisle, but likes the hospital best.

Principal Blair reports that Lena is impulsive, rather uncertain and inclined to see only the humorous side of things. She is not studious, but applies herself under competition. She is always pleasant and cheerful.

Matilda Ewing reports that Lena is a young inexperienced girl who is easily led by others.

Lena is in good health, and spends her money freely.

Leena Parker is a young inexperienced girl who is easily led by others. She is industrious, neat and pleasant. Fairly economical, and I think if placed in ~~the~~ proper guidance will make a good woman, but as yet is too young to be thrown on her own resources,
