KAMIAH, IDAHO March 5, 1908 190

HON. F.B. LEUPP,  
Commissioner of Indian Affairs,  
Washington, D.C.

My Friend:--

I have received your letter of the 18th, ultimo., and as I am now at home, having arrived here several days ago, I feel relieved of ill-feeling occasioned by the difficulties at the School; and I accept your letter with more consideration.

I regret, deeply, that I could not have appealed to you for justice at the time when my troubles at the School began, and I believe I would have finished my course at the Dickinson Preparatory School and entered upon collegiate studies.

If, however, through your influence, there is any opportunity for my attendance at some school, I would be very glad to continue my studies and make of myself what is expected of me. I am comparatively young and am confident that I can make the most of any opportunity as presented by you.

E

Very respectfully,

J. M. Parsons,

Kamiah, Idaho.
