Carlisle Pa - 7-9-09

To the Commission of Indian
Affairs at Washington D.C.

Dear Gentleman we think
here at this school at
Carlisle that - it is very
nescessary for you to send
someone here to thoroughly
investigate matters and
see & find out what kind
of treatment - some of the
children receive, and what
kind of people they employ
to oversee matters here. they
have hired a dirty old farmer
to make the butter and dress

the meat and the half the
time the tobacco spit is
running down over him
and he looks like a tramp
and he has the reputation
of stealing any thing he can
get his fingers on for any
information you may
want - on this subject
inquire of R. W. Woods, Esq,
he can tell you all about
him we are proud of our
school but we would like
to have clean and honest
people to run it, and do
hope some one will be
sent to investigate

and evoy crooked place
be made strait. there is
without doubt some changes
needed and we hope they
will be made.
