DEPARTMENT OF THE INTERIOR,
INDIAN INDUSTRIAL SCHOOL,
OFFICE OF SUPERINTENDENT.

Carlisle, Pa., September 19, 1909.

My dear Mr. Leupp:-

I am sending you, under separate cover, several copies of a little pamphlet on tuberculosis, its treatment and management. This bulletin is intended to give a general idea of the plans to be followed at Carlisle in treating the disease and in spreading information concerning its nature and prevention.

You will notice at the end of the bulletin that a series of six talks are contemplated. These will be given before the entire student body and will later be published in pamphlet form for distribution throughout the Service.

I hope that this little start will assist the Office in its campaign for the stamping out of this dreadful scourge.

Sincerely yours,

W. Friedman
Superintendent.
