Commissioner of Indian Affairs,
Department of the Interior,
Washington, D. C.

Sir:

This Bureau has received a letter from the State Veterinarian of Pennsylvania, stating that application had been made to the State of Pennsylvania by Dr. M. Friedman, Supt., U. S. Indian School, Carlisle, Pa., for the tuberculin test to be applied to the dairy herd maintained at that institution. As the State Veterinarian of Pennsylvania understood that previous tests of this herd had been made by inspectors of this Bureau the matter was referred here before any action was taken by the State in regard to the testing of this herd.

It is respectfully requested that the Bureau be informed if it is your desire that the herd be tested under its supervision or that of the State of Pennsylvania.

Very respectfully,

A. M. Farrington

Acting Chief of Bureau.
