3. Friction massage eyelids Nitrate mercury ointment 40% (per No. 117 Hardy)
4. Capsule Sodium Salicylate-thiosinamine gr. 3.
5. Syr. Ferric Iodide Gtt. xxx.
6. Repeat No. 4 at four P.M.

FRIDAY.

REPEAT TUESDAY'S TREATMENT.

NOTE:

Twenty-two cases are to be treated under this treatment indefinitely. It is a much mooted question whether Trachoma is ever cured in this stage. I advise the patients to take at least six weeks treatment every year of their life so as to take precautions to prevent the loss of their vision.

M. FRIEDMAN, SUPERINTENDENT.

SUBJECT: TREATMENT FOR THIRD
STAGE AND NAMES. FEB. 3, 1912.
(Trachoma) Dr. W. D. White.
