Circular #638.

Industrial
training.

To the Honorable,
Commissioner of Indian Affairs,
Washington, D. C.

FILED BY H. P. F.

File

Sir:

I have your circular letter dated June 5 relative to industrial training, and have to say in reply that taken generally, the industrial training for the students at Carlisle is of a very high order. The instruction in girls' industries has not been as efficient and comprehensive as it should be, and I am sending under separate cover request for materials which will improve the instruction and assist in systematizing the work. Several requests have also been sent in for additional equipment for the boys' industries, and as the funds are available out of this year's appropriation, I respectfully urge that administrative action be given them promptly.

Very respectfully,

M. Friedman
Superintendent.
