Request to
study engineering.

John J. Jackson, Esq.,

C/o W. W. Davis,

Rushland, Bucks County, Pennsylvania.

My friend:

The Office has received your letter of August 11,
expressing a wish to learn engineering.

The Superintendent at Carlisle tells me that he has
issued instructions to have you detailed to the engineering
department as soon as you return from your summer outing in the
country.

Mr. Friedman gives you a very good record. He says
you will avail yourself of any opportunity that may offer to
gain additional industrial training. The Office is very glad
to know this and hopes you will be satisfied to complete your
term at Carlisle and learn all that is taught in the engineering
department there. It may be that at some future time, you will
be able to pursue the study of engineering still further.

Very respectfully,

(Signed) C. F. Hauke,

Chief Clerk.

The Honorable,

Sir:

Referring to Office letter dated August 18th, 1909, marked "Education - Administration, 62444-1909, A.V.S." and relative to a request from John J. Jackson that he should be allowed to study engineering, I respectfully report that it will be practicable to place him under the instruction of our school engineer and that I am issuing instructions today that this young man shall be detailed to that department as soon as he returns from his summer's outing in the country.

This young man has been very backward in his academic studies, but has a splendid record in industrial work and under the outing system, so that he can be expected to avail himself of any opportunity that may be given him to gain further industrial training.

Very respectfully,
