The Office received your letter of Hovember 19, 1911, requesting the termination of your enrollment as a pupil at Carlisle in order to find employment by which to earn money for the support of your mother and small brother who are now dependent upon you because of your father's death a short time ago.

This letter pleased the Office very much and it was inclined to grant your request but it found on inquiry that you are a deserter from the Carlisle School and that your record for some time has been far from satisfactory.

While the Office sympathizes with you in your desire to help your people it believes that the time has not yet come for you to go. You should stay at Carlisle through your entire period of enrollment and by improved behavior show that you have the making of a man in you. Without the qualities of

Respectfully,

Sir:-

At your request I submit the following statement with reference to John McInnis, a pupil of this school.

About the 1st of last April John asked permission of Mr. Whitwell, the Principal Teacher, and me to stop school and work at his trade in the town of Carlisle in order to earn some money to send to his mother who was old and in destitute circumstances. This request was granted and he was given permission to board and room at the school.

The Outing records show that he was given permission to draw \$15.00 from his first month's wages to send to his mother. This is the only record we have of any money being drawn to send to her.

After working in town about two months he began to return at night at irregular hours. On investigation we found that he had been working some evenings after supper. His coming in at irregular hours made me suspect that his conduct was not good, but I had no positive proof of it.

About the 1st of November I found that he had been spending a part of his evenings attending shows and associating with negro women of ill repute. I at once took him from work in town and put him back in school and in our shoeshop.

In a few days he ran away. The third day after he ran away a negro woman called at my office and reported that she had found John McInnis and her daughter together on the street at midnight the night before. She gave me a letter which John had written to her daughter, a copy of which is herewith attached.

In a few days he was located and returned to the school when after a few days he ran aeay again. When he was found he was in a partially intoxicated condition and had on his person three bottles of beer and a new overcoat which he had stolen from one of the Indian boys.

Very respectfully,

JAMES E. HENDERSON

Disciplinarian.

Mary:

Your letter came to hand last evening after I got home. The reason I didn't speak to you last evening was because I didn't want that fellow to know I was acquainted with you. I tell you a fellow can't keep too still now days for first thing you know some fellow is on your heels. Some fool made trouble for me so I lost my job. I did everything I could to get away from here but couldn't make it. I am going to Harrisburg this afternoon and may not be back if things look favorable so I am sorry I cannot be with you tonight. Another thing I cannot come at any time I want to. They are watching me very close. But I going to chance it this afternoon. As I haven't much time I come to a close. If I succeed in getting away you shall hear from me for I am tired of this school and its employees. Now be good. Good bye.

I came to the school about three years ago with a determination to accomplish as much as possible with in a limited time, and I am glad to say, things went my way and I accomplished much, for which I shall never be able to repay my dear teachers, and suddenly my schooling was put to a stop. The best more on the earth died my father. Leaving mother and my small brother in a very bad was in regards to making a living. The having no education not training Sound it very hard to make the ends meet and another thing we are not surrounded by nice farming lands like most Indian are.
