Complying with the request contained in your letter of May the 9th I have to report that Montreville Yuda's conduct has not been satisfactory for some time past. He has been taking advantage of the Disciplinarian and has been staying in town among a class of people not at all desirable. A few days before the time of his visit to your Office he was told that it would be better for him to leave the school and the town of Carlisle. It was then that he claimed to have been employed by a Carlisle merchant to go on duty some time after the close of school.

It has since been learned that such alleged employment would consist of peddling ice-cream and in taking charge of a stand where the refreshment could be obtained at Fairs and other gatherings of a similar nature. Montreville has interfered with discipline from time to time by engaging in the sale of ice-cream here at school.

It has been learned by experience that when students have completed a course at this school or are released from

school for any reason whatsoever it is not advisable to have them remain in Carlisle. The freedom they will have when not under the control of the school interferes with discipline and results in trouble sooner or later. Because of Montreville's associations in Carlisle his remaining in this vicinity would be decidedly unsafe.

In accordance with the original decision in the matter, which was made in the interests of discipline, Montreville left here on Saturday evening, May the 10th, with the definite understanding that he will not return to Carlisle.

Very sincerely,

Superintendent.

I do not think we could,  
nor should we if we could  
keep Ynda away from  
the city of Carlisle. It  
seems that Mr Friedman  
might bring all such cases  
to the local authorities &  
to ask for their assistance  
of course if Ynda did any  
thing unlawful in regard  
to the school, then the Sup.  
through the local authorities  
could act, or if a non-citizen  
under the circumstances he  
could then be sent to his reser-  
vation -

My dear Mr. Friedman:

Montreville Yuda called at the Office yesterday and requested permission to leave the Carlisle School, but remain in the city of Carlisle at work and attending night school. He gives his age as 23 years, and states he is a New York Oneida. From Mr. Yuda's conversation I gathered that there has been some difficulty between him and the authorities at the School. I wish you would write me immediately all the facts in the case, with your recommendation. Mr. Yuda understands there is objection to his remaining in Carlisle if he leaves the School.

Sincerely yours,

*Signed) F. H. Abbott.*

Montreville Yuda gave the following information to Mr. Abbott concerning himself:

Has been a student at Carlisle; is a New York Oneida; has had no allotment or money from the Government. He has an interest in what is called the Kansas claim. He wants to know whether he has any right to an allotment anywhere or not; also wants to know whether he can go to work in the city of Carlisle or elsewhere independent of getting permission from the Indian Office. He is 23 years of age.
