Dear Sir,-

There is a paper sent from the Carlisle school for New York State to be filled out by the teacher of the child who makes application. This seems to prevent children from entering Carlisle as the Nuns refuse to sign them. I understand several children wish to leave <sup>The Industrial School</sup> as their parents see they are neither learning English to read or speak. I know of one who has applied <sup>and</sup>

The nuns of the Hogsansborg  
Industrial School refuse to  
sign papers, There are some  
Sixty girls in this school and  
from what we learn they make  
very poor progress in any  
thing save their religion It  
seem unjust while the others  
are learning English in the  
common schools and will  
most of them be able to speak  
and read English, these should  
be kept behind <sup>the rest</sup> & especially those  
who wish to go to some other  
school

Can any thing be done about  
this

Respectfully yours

C. C. Baker
