My dear Mr. Lipps:

In accordance with your recommendation of August 28th, and the applications contained in your letter of that date, authority is hereby granted for the enrollment at your school of three young men of the Five Civilized Tribes, who are now more than twenty-one years of age.

This authority is given for the reason that the young men will be required to pay their transportation from their own funds and their admission to Carlisle will not be the occasion of depriving any students of attending the school.

The correspondence and applications are herewith returned.

Very truly yours,
(Signed) *E. B. Meritt*

Sir:

I enclose herewith for the information of the Office correspondence relative to the enrollment at Carlisle of three young men of the Five Civilized Tribes who are now more than 21 years of age. The applications for enrolment are also being submitted herewith and it is respectfully requested that I be advised what consideration may be given the applications.

In view of the fact that the young men would be required to pay for their transportation from their own funds and it is not at all likely that any other students would have to be deprived of coming to Carlisle on account of the three named in the correspondence herewith I recommend that I be authorized to effect their enrolment upon arrival here.

Very respectfully,

O. H. Liebowitz
Superintendent.

My dear Mr. Wylly:

I will gladly submit to the Indian Office at Washington the applications for the enrolment of the three young men who are mentioned in your letter of August 18th. Before such action is taken, however, I would like to be informed on what date Wilton Ishcomer was born.

Assuring you that I will gladly cooperate with you to effect the young men's transfer if authority to enrol them is granted by the Office and that I will appreciate a prompt reply to the request in the foregoing paragraph, I remain,

Very truly yours,

Dear Mr. Lipps:

There are enclosed herewith applications for the enrollment of Moses Thomas, Wilkin Ischeomer, and Sam Austin in your school. These young men are over twenty-one years of age, and it is my opinion that they desire to go to the school for the industrial work. I have not approved the applications, and if you care to make them special cases with the Indian Office, and the applications are accepted, you may return them to me for my approval, if necessary.

Yours very truly,

A. S. Wiley
