Respectfully,

(Signed) C. F. Hauke.

Sir:

Referring to Office letter of August the 24th, I respectfully report that since there is room at this school to accomodate additional students I will be pleased to receive Edward Whalen if the necessary authority is granted me. For the reason that the young man has advanced far enough in his academic studies to get a thorough working knowledge of a trade during a three year period of enrolment I recommend that his application be changed to the shorter period.

Very respectfully,

*M. Friedman*

I am guardian for Master Edward Whalen, who has just recently graduated from the Pipestone Indian School at Pipestone, Minnesota and I have made application to enter him at Carlisle and they in turn have referred me to your office. You will note that the little fellow is one-eighth blood, however, he is an orphan as far as we know and he would like very much to continue his studies. He has considerable native ability and Mr. Mann, Superintendent at Pipestone has written me several very nice letters regarding his conduct and ability while attending that school. He is hardly old enough to go to work and I hardly know what to do with him unless it is possible for me to get him into some of the other Indian Schools. He has read considerable and is very much interested in Carlisle. I, therefore, trust that you will give this application every consideration and that I may hear from you favorably by return mail.

Yours very truly, J. M. Whalen.

Please give this application careful consideration and report to the Office your views thereon with especial reference to the advisability of authorizing the enrollment in question for the period stated in said application (five years), which appears to the Office unreasonable in view of the fact that this boy is said to have completed the eighth grade of academic instruction.
