Gen E M Marble
Acting Commissioner &c &c.

Sir:

Having reason to believe that Capt. Pratt has enough more indian students to complete the government quota here (68 is the number and there are but 59 here) I write to state that Lieut. Brown at Yankton D. T. has informed me that there are very many indians with there who desire to come.

I would remark further

that the larger portion of our
Indian students will have
completed a three years course
of study next November, and
be prepared to return home;
and, that, about nine be
sent to take their places,
it would be very desirable to
have with us from ten to fifteen
who by coming now, would be
well "broken in" then, and be a
great assistance in carrying
on the great work.

I am Sir
With great respect
Your obedient
S. C. Armstrong
Principal
