

PII-1-1

I regret that your late acknowledgment to invitation finds the admission tickets exhausted, and I am, therefore, unable to send you any.

To the Carlisle Friends of the Indian School:

As the school is always open to visitors on week days, I apprehend that our friends in Carlisle receiving tickets to our Commencement will care most to be present at the general gatherings on Wednesday evening, and the Commencement exercises on Thursday afternoon; but there may be quite a number who also desire to see now the work of the schools, the shops, and the gymnasium. In order that our visitors from a distance may have the full opportunities their interest deserves and at the same time we may accommodate everybody, let me specially invite those in Carlisle receiving the enclosed tickets, who care to look over any feature of the school work, to do so on Monday, February 28th and Tuesday, March 1st, both of which days the shops and school will be open especially for such visitors; and on Monday night at 7:30 o'clock we will have the same gymnasium program that we intend to give on Wednesday afternoon. Please take advantage of these occasions, and then omit coming to the gymnasium, industrial and school exercises of Wednesday afternoon and Thursday forenoon, so that our visitors from a distance may have better opportunities than they have had on former occasions. We shall have accommodations at the Wednesday evening and Thursday afternoon Graduating Exercises for all holding admission tickets.

INDIAN SCHOOL  
Feb. 21, 1898.
