My dear Doctor -

Thank you for the H, L program. Wish I might be there to enjoy it with you all.

From now on to the end of the month I shall be under the same strain of activity and travel I endured coming east.

There were 18 of my old students employed in and near Rochester in an evening gathering Saturday my daughter Marna had, and some of them were a force in their lives worth noting.

Your little plaque is a souvenir worth having and I thank you for sending it.

I may have sent you some of the enclosed clippings. If so pass them on.

The Berkeley address above is ours till spring or so.

Cordially yours

Rt. Hall
