

22 WILLIAM STREET,
CITY OF NEW YORK.

January 30th, 1907.

Captain R. H. Pratt,
Denver, Colo.
My dear Captain Pratt:-

I am not sure as to the title, I think, especially as I refer to the enclosed newspaper clipping, that I should address you as "General."

You may have seen the enclosed, but I send it along, however, for in reading it, it has occurred to me to ask if my brother, the doctor, was not early interested in the movement which created Carlisle, and which has become so famous under your admirable management. I cannot recall the year, only the fact of his being in St. Augustine, Florida, at the time Geronimo and the other Apaches were brought there by the Government.. If such is the fact, would it not be well if you prepared a true statement and sent it to the New York Mail.

I am glad of this opportunity to say that you are not forgotten, in fact you are often spoken of when I happen to be at Mrs. Agnew's. I trust that you have been and are and all your circle in the enjoyment of good health, and may the new year be all you may wish it to be.

We are all very well. Mrs. Agnew has been especially well during the winter until the past two weeks when a severe pain in the top of the head, caused by Grippe produced some ear trouble, and it was feared for a day or two that there might have to be a mastoid operation, but as a free discharge from the ear has set in, giving her great relief, now they feel that the danger is passed.

I secured your address by writing to Major W. A. Mercer, present Superintendent of the Carlisle School.

Yours sincerely,
