

March 5th 1904

My dear General:-

I recall with great pleasure
a trip I made some years
ago, from Washington to Carl-
isle, with a party of Govern-
ment people to attend
the Commencement at the
Indian School. I remember
that Senator and Mrs. Teller,
Congressman English of New
Jersey and I think Mr. Jones,
then Indian Commissioner, were
in the party, with others.

I was with the Pennsylvania
Railroad Company at that time
and on your personal request
I was permitted to accompany

[1914 Mar 5]

the party.

I left the service of the
Pennsylvania R.R. in 1902
and came to Chicago to en-
gage in other business, and
it is my privilege in connec-
tion with my business to
receive each month a copy
of "The Indian School Journal",
issued at the U.S. Indian
School at Chilocco, Okla., and
in the March number, rec'd
today, I am gratified to
see your picture and to read
a short article written by
your friend Herbert Welsh of
Germantown, Pa., to whom I

194 Mar 5
am sending this with a
request that he forward it
to you as I do not know your
address.

I am indeed glad to know
that you still are living,
and while possibly beyond
the active service that
your life and example will
always be an incentive to
others whom it has been
your privilege to start on
the road of Civilization.

Yours very sincerely

Geo. E. Armstrong
