Dear Captain:

Your idea of
getting Col Smead to
Hampton is excellent.

I hope you can make
it go. In this & in all
such matters please
keep remembering
extra expenses & every
how & I will make it.

right. Entertainers & every right. Let "Woman" have

I beg you once at the time share: - time
any time make such as much as early as
expenditure is as is
manifestly "the thing" to be.

Mean will keep us.
the "Woman" more
ment is strong may
unlike us. They had

a man lobbying for
weeks. I found it out.

But, Mean idea of
the duration seems about

right. Let "Woman" have
the time share: - time
as much as early as.

As to time going
for Indians you can
but decide for yourself.

The yellow fever changes
its place from time to time.

As to the terms
\$164, as a year for Indians
I think it right that
for the current (2nd)
year one scheme have.

that amount. We have
 spent in a year of \$15000.00 ^{extra}
 in the scheme of the ^{the same}
 American Board the
 "boys go home from
 May to September" as
 Dr Joseph Ward writes;
 gives about 2 months at home.

Our price is fair.
 I do not believe in
 Mr. Bayt genuine sympathy
 with the Abolition effort
 I have no hesitation
 in saying the price is 16%.

2
 But should the
 department officials
 declare itself in cutting
 unwilling to pay over \$50.00
 I am agree to it.

Our sole strength
 is in Seluz.

Let it go at 68 millions

I am glad you have
 got Rabb with Mr.

Burman hands - if
 he can stand the journey

Yet I should not be
surprised if he went
steadily down. He seems
to have no basis of strength

As to your previous
elections at Hampton
then seems no need of doing
anything till you learn
plans at Washington

You evidently will be
substit to call at any
time in the interest of the
general work.

 Yesterday I saw many
 as the boys - Little Quiz
 trouble is much he went
 back & is cheerful; all
 are fairly well; most are
 doing capitally. The living
 prunus succus. Hyde
 is a good faithful man
 & is exceedingly kind
 as Lexington come to his
 home. I was at
 Beebe yesterday.
 Chastin with us today

then all winter.

I have Johnnie die
it would be a sad blow

In my own sad
experience consumption is
a reluctant thing

I hope all is well
& comfortable with you
your family. I sigh
for watermelons

Respectfully
J. C. Montgomery
