Dear Captain:

Yours & Best
I am glad you got Robt
off! Hope he will survive.

I don't like that
\$150. co idea. We are spending
on current expenses more than
we get as our accounts
clearly show Besides the
\$1500. we put in for
fundings &c. for Indians
We keep them 12
months in the year; others
do not. We ought

When for the current
fiscal year, at least,
the \$167.00. It is
just & will be an
examination as well as
comparison with other
Native Indians - especially
about the boys so from June
May to November (Rev. J. Ward
School.)

In the matter of
girls you will, of course,
do in every respect as
you think best. Bring
a few - not more than
six - on the number - the
extra ones to go direct to

 farm, a other work for
 a year

I will again
 write the Secy about a
 City Com about your
 detail - seems not
 necessary but I'll push
 it at your suggestion

My brother & wife
 is expecting a baby soon;
 many things may delay
 them so don't do
 anything decision about the
 home till things are

definite. I will
 try to fix them coming
 not soon than Nov. 1st
 & not unlikely it may
 go over till Dec., or even
 January. Please fix the

vacation matter - now
 that Slack wants to go - as
 seems best to you. Give
 letter from Sterrett full
 instructions & establish a
 routine.

Very kindest regards
 to Mr Pratt
 Yours sincerely
