Dear Captain

I am writing a paper on Indians for Am. Assn. Anniversary at Cleveland next week. I wish to put in a card about the Indians of Indian Territory. What is the situation in a nutshell? Are they decreasing? Are they increasing? Are they improving? Are they becoming more civilized? What are the educational advantages?

and needs - what's
govt. doing - how
many from your farm
there?

If their system
of government & breeding
breeds a permanent one
a likely to change

Will you please
answer at once, as my
time is very short. I
have been working in N.Y. -
badly pushed for funds to
complete breeding

Wishes all is well
with you

Sincerely yours

J. C. Armstrong
