Dear friend and
School Father,

X This is a chance
I never expected to have
again and I cant

hardly write it seems
as if my throat fills
up, when I think of
you and what you
have done for
my kind of people. X

I am a married
man and a father to
seven children, six are
living, two boys and

four girls; We have our own home, and farm. Cows pigs and horses. I work in a saw mill, when there is nothing to do at home.

My oldest girl is in the 8th grade in the day school.

I am glad that God has spared you so many years, and I hope that God will see fit to grant you many more and happiness and comfort with

them.

X I have the picture of you, and it is well taken care off; it seems to guide me yet in many ways and makes me think of the good things you told me when I was at school. X

I will not tire you with my poor writing hoping to hear from you some time, I remain sincerely your friend

Samuel Brushel
