

Carlisle, Pa.

Oct. 8/1914

Dear General:

Enclosed I return Your admirable paper exposing the "system" in vogue for the management of the Indians. Mrs. Biddle and I have both read it with much interest & unite in sending hearty congratulations to you for the forceful manner in which the subject is presented. It is needless to say that we thoroughly agree with Your views.

I trust that you had a comfortable trip to Washington and that we shall soon see you again - also Your good wife, who ought to have been along this time - Make her realize what she missed!

Yours sincerely,
E. W. Biddle
