

Litchburg Dec 22nd 1882

Prof R H Pratt M S A.

Concord N. H.

Dear Sir.

The suggestion comes to me through Mrs Bryan that you might be willing to visit Litchburg to hold a meeting in the interest of Indian Education, and I have no doubt that such a meeting would do much good. I had a few words of conversation with her on the subject also, and have decided to write to you.

The Litchy people is not large enough to handle several subjects of people's interest at the same time and as there seems to be so much on hand or projected just now - including the holiday season - the work of Spring - some meetings - Special Church meetings &c - we can see no available

time for this before February.

If I can make the necessary arrangements for a meeting, would it suit you to come here towards the middle of February?

I did not happen to see an announcement of your meeting in Phil, which took place during my absence in the weeks with your reply would be glad to learn whatever you may communicate in regard to that or the suggested meeting in Albany.

What friends or other persons will accompany you? Should the meeting be held on a week day - or in a Church on Sunday evening? Do you wish to have a collection made? Do you wish to have other speakers besides yourself? Will we be expected to provide for the travelling expenses &c. and if so, what will be the probable amount? Of course I should expect you to be my guest at home

if you come - and if there is now a Mr. South - both Mr. Brunot & myself will be delighted to have you bring him with you.

Looking to hear from you soon.
I am very respectfully & truly
your friend -
Abel R. Brunot,
