To the Registrar of the Carlisle Indian School,
Carlisle, Pennsylvania.....

Dear Sir:

We enclose herewithan affidavit which has been agreed to be admitted as your deposition in a lawsuit at this place on which the date Ellis Childers finally left your school is a material issue. Childers testifies that he left your school about May or June of the year 1884, and never thereafter re-entered same and we are sure that this is correct. We are enclosing you an affidavit with the date blank as to his first matriculation and showing that he left in the year 1884. We would be obliged to you to consult your records and fill in the blanks in the enclosed affidavit and return same to us with statement of whatever charges or fees maybe due for your investigation. We would be obliged to you to do this as immediately as possible as the case stands for trial at a very early date.

Yours very truly,

Watts & Summers

If the enclosed affidavit fails in any material way to show the facts, please re-write it so that it will exactly state same -

CREEKS WILL FIGHT

The Honorable Commissioner of Indian Affairs is making a determined fight against the pernicious influence of whiskey among the Indians. His stand has been so fearless in the matter that the press of the country has highly commended him and in many instances used his arguments and views for their own communities. What has undoubtedly pleased the Commissioner more than this, is the lining up with him in the fight of the Indians themselves.

The thinking Indian has rallied to the banner and we give below an extract from the official record of the recent Extra-Ordinary Session of the National Council of the Creek Nation, convened by authority of an act of Congress, which is one of many signs that the Indian appreciates the seriousness of the efforts now being made to give him a chance.

Resolution

Whereas; The present greatest foe, threatening the health, the wealth, the moral and social standing of the Indian race, is the Demon drink which operates upon every fiber of his being, the effect of which is to destroy his intellect, dethrone his reason, waste his estate, and in the end consign him to a pauper's grave; and

Whereas, as members of the Creek National Council, many of us represent, in our humble capacity, the places made vacant by the deaths of our ancestors; considered then, as we consider them now, honorable and high positions of great trust, entrusted by the masses of one of the greatest Tribes of Indians of all history; and

Whereas, we realize these things and further realize the splendid effort the Honorable Cato Sells, as Commissioner of Indian Affairs is making to prevent the sale or other disposition of intoxicants among us and desiring to help him in his fight, and to otherwise set an example for our children to follow;

NOW THEREFORE BE IT RESOLVED AND ENACTED:

Section one. That it shall be unlawful for any member of either House of the Creek National Council to use, in any form, any kind of spirituous, intoxicating, fermented or malt liquors, wines or other beverages;

Section two. Any member of the Creek National Council who shall have been found guilty by a majority vote of the House of which he is a member, of having violated Section One (1) of this act, shall thereby forfeit his office, and thereupon his successor shall be appointed by the Principal Chief from the two? represented by such member.

Section Three. This act to become effective from and after its passage by the Council and approval by the Principal Chief.
