M. Freedman: "Supt."

Respected Sir: I am in receipt of your welcome letter and I want to say that it has made me very happy.

It is a kindly word of encouragement to a struggling son in a great city and words can not express my great happiness to realize that I am one in that body of young men of whom Carlisle is proud.

I am going to live my life so that Carlisle will never regret the great interest it takes in my welfare and I am going to prove that Carlisle men are true men and equal to any living man

6 fields of profession
Your interesting letter
recalls to my mind, the many
interesting incidents of my
life while there at Carlisle
and my heart yearns for
just a single hour within
the walls of the old school,
that I may again hear the
interesting talks on success
by great men and be in
the midst of that throng
of ambitious real Americans.

I feel greatly pleased to know
that so many of Carlisle's
sons and daughters have
made the most of their
training, but I would not
expect otherwise.

Your great school sends
forth into the world men
of high ideals and lofty
ambition; they go forth
equipped with every factor
necessary for the battle of
life and every Carlisle man
I know of have made
good in their various
callings.

The character that Carlisle
has moulded for me and
the great ambition it has
instilled within my heart
has made me a fearless,
patient student and now
my future is bright and I
am happy.

Like your great victorious
aggregation of foot ball
warriors who have won
the admiration and respect
of the whole Country by
their fair play. Everyone
of your men and women
will some day come into
the great fields of endeavor
and become victors and on
every lip will be heard a
prayer for dear old Carlisle
and its faculty of faithful
men who are the Indians
best friends.

I am with great respect

W. Freedman: "Superintendent"
U. S. Indian School
Carlisle, Penna.

Esteemed Sir: I regret to inform
you that it will be impossible for
me to attend your exercises
during Carlisle's Commencement
week due to business reasons.

I regard your letter an honor
extended one for which I want
to express my heart felt appreciation.

It would mean simply a return
home to Mother because Carlisle
is the only parent I have and
it is due to her guiding hand
that I am, what I am today.

I would like to say in my
humble way to your fortunate
Seniors a word of encouragement
and cheer because I realize just
what trials each and every one of
them are to be subjected to in their

struggle for success.

But I also realize that they are made of good material and they will not lose, but will live, according to their Class Motto's significance "Truth Conquers" and win out in the end.

I would like to tell in person to the Faculty of Carlisle my great feeling of gratitude for all it has done for me and how I hold the memory of my days there nearest and dearest to my heart.

I wish you all happiness in your noble mission among a wronged but noble Race and I pray as all Carlisle men do that success will crown your untiring efforts and place the American Indian Race on a level with the most advanced Races on earth.

I delight in reading your little arrow and it is justly

named because it shoots the interesting occurrences there at School to all parts of America and in so doing it also brings happiness.

I wish to become a subscriber to your Magazine so please send a bill with the first edition and I will forward amt in next mail.

I will regard it as a great favor if you will kindly see that your music department gets the song successes I am mailing you as they ~~are~~ under study to the Composer who is a well known musician and is also supervisor in Public Schools music.

I sang first tenor in your Choir and Quartette while there so I hope the singers will look these over on that consideration.

Again I wish you success in your noble work and I assure

you that there is one son over
here in little old Boston who
is not only making good but
traveling a few paces faster
than most of his white
brothers and I compete with over
a hundred of them who work
in Mr Davis Employ.

Please accept my apology
for delaying this writing
I remain yours very respectfully

U. S. Indian School
Carlisle, Pa.

Respected Sirs: I am in receipt of your kind letter inviting me to attend your memorable exercises during Carlisle's Commencement week.

I feel greatly honored by this consideration and it grieves me to say I will be unable to come owing to my duties here in the office.

My employer has read your interesting letter and has very kindly offered me that week but after considering the great expense and mental strain it would mean to him, I deem it my duty to refuse his kind offer. Every thing considered.

To be more clearly understood I

will say that my position requires business experience, unquestioned honesty and perfect physical development. Without these qualifications a man can not fill this position.

It would require a long time to acquaint one with my duties and I don't believe that for just a short time it would be acting fair and square with my employer, as he like any business man would not like to give any knowledge regarding his business to an outside party such as would be necessary in case I took any time off.

So you will pardon me as I am heartily sorry that circumstances are not favorable in my case.

A trip to Carlisle would make me happy as it would mean nothing more or less than going home to Mother and Father. Carlisle being the only parent I have ^{ever} had to guide me thro' the storms of life and my poor heart beats with the truest love for her and appreciation

for the great good there is in me.
I thank her for this unceasing
desire within me to do something
more each day to bring myself
near the great goal of success.
and fight the battle of life with
that same great fighting spirit
so well known in all Carlisle
made men and women.

I wish all success to those
fortunate seniors. May their
individual lives be full of
happiness and contentment
and in the end may they all
reach the pinnacle of success
as the great reward of all who
wins by labor and sacrifice.

I cannot thank the faculty
of Carlisle enough for its
kindly interest in me and I
believe I am living according to
its teachings realizing the fact
that my reputation is as spotless
as the snow here in this great
city and in all other cities and
today I have the honor of having
on my friendship list many of

The leading men of this state,
I come into contact with them
every day of my life and I never
fail to say loud enough for
them to hear the great good
that such a grand old school
as Carlisle is doing for a
noble but unfortunate race.

I wish you success in your
great undertaking and I know
that every loyal Carlisle man
who can be there will surely
come.

I am with great respect

Dear Sir: I believe I owe you
an apology for my long silence
but I have not forgotten Carlisle
by any means. About the
time I rec'd your last kind
letter of encouragement, I
met with a very serious wrist
injury which made it impossible
to use my right hand for
nearly a year. Fortunately
I am well and strong again.

I am now an Insurance
writer engaged by the great
Prudential Life Insurance Co

of America. I find the business both fascinating and profitable
The salary is unlimited and the Company is very liberal with its
field force. I have made a weekly salary as high as
\$85.00 and I am certain that as I become more acquainted
with the details of the business I will be a leader in all
departments. I am second to none at present in the
office in the ordinary department and I am gaining day by
day in the Industrial department. I often ponder of the
happy years I spent at old Carlisle and every time I find
my courage failing me I recall that grand old man
General R. H. Pratt as he gazed out over that immense
Student body telling us of the great future for all Carlisle
made men. and my courage returns to me and as
long as I live I shall breathe one sweet prayer for the
preservation of so noble an institution as Carlisle and
its corps of able instructors in whose hands lies
the destiny of the whole Indian Race.

Very truly

Roses Friedman, Superintendent

Carlisle School
Carlisle, Pa.

Respected Sir: If any statement
of mine as a former student
of your great Institution will
aid in convincing the American
people & Government that it does
pay to educate the Indians, like
all other young men who have
had the good fortune of Carlisle's
teaching I am very anxious
to make it.

I have inserted several pieces
in the columns of different
publications on this same subject
on various occasions in the
past, where some influential
American citizen has made
bold to remark that instances
can not be cited where the
Indian has made the most of
Carlisle's teaching.

These men are high in social and political life and interested in the onward rance of civilization. But when the question of Indian education comes up they class him with the beasts. His mind is barren. he can't learn.

Nothing would please me greater than to stand up before these men and tell them what I think of them.

The Indian race today is crying out to the American Govt. for help and Carlisle is that help and the only just payment for the great wrongs done it.

Love what I am or ever will be to Carlisle and I am proud to admit that every student from my tribe who have returned from Carlisle is a gentleman and respected by every one he comes in contact with.

I am giving you the address of my present employer one of the prominent business men of this city and a man who will tell you all about me as to character & ability.

I am building on the foundation
I got at Carlisle. I am
equipped with an excellent
character, I am full of ambition
and I'll win out.

My heart felt thanks to
your great faculty of
educators for what it has
done for me.

I sincerely hope the years
as they roll by will find
Carlisle made men in all
the large cities of these
United States sounding
praises to the Government's
great Cause and even the
old saying that a Good
Indian is a dead one will
be a thing of the past

Dear Friend:

I have your letter of October 26th and desire to thank you for your expressions of appreciation and good will for your Alma Mater. I am very glad to know of your success and hope that you will continue to make good.

As to the sale^{of} Singer Sewing Machines to the school, I have to advise that all supplies for the Indian Service are purchased by contract, and if your Company desires to secure any of the business, they should write to the Commissioner of Indian Affairs, Washington, D. C., for information regarding making bids for furnishing sewing machines to Indian Schools. The contract for this year was let last spring, and the contract for the coming year will be let next spring.

With kind regards and best wishes, I remain,

Very respectfully,

Dear Sir: At this time
when Carlisle has rounded out
her 35th Anniversary and
looks back over those years
of labor with great delight
As she beholds the thousands
of successful men who
have gone out into the world
and made good, I feel that it
is my duty to write and
congratulate you sir and
tell you in my humble way

I have been offered the
next position of Manager
for the Company I represent
The Singer Sewing Machine Co.
due to my record as salesman
I am installing Singers in
all public institutions of higher
learning and have been
exceedingly successful.

If you are contemplating
fitting out your sewing
department with machines
I assure you I shall be pleased
thankful to quote figures
on our late Singers.

I am desirous of installing
these machines in all the
Government Indian schools
and if I am successful it
means a big position for me
and big salary.

I am aware that you are

Institution requires machines
as well as several other large
Indian schools and I shall
feel greatly indebted to you
if you will use your influence
in my behalf.

The superiority of the singers
and the fact that I am in a
position to sell at lowest cost
probably will be an inducement
for you to consider me.

If I can accomplish this
feat I shall feel honored to
call at your Institution as
I would love to look at your
student body once more and
tell them how thankful I am
and they should be to be called
sons of Carleton

that I am proud to be able to
say that I am one of her
Patriot sons in the making

I pray that your great
Institution will live forever
and continue to send forth
into the world men of noble
character and high ideals as
it has done in the past, and
that it will always stand out
the fitting movement that
it is to remind my race
of its best friend and God's
noblest messenger.

General P H Pratt.

With all the rest of your
struggling sons I wish you
God Speed in your noble
work.
