We have recently received a letter from George Seneca, who is employed by the Lake Shore and Michigan Southern Railroad. He writes: "I have been working for this company over four years in the Structural Iron Department. I cover the ground between Buffalo and Chicago branches, and I get home every two weeks. I have been married now almost four years, and have a nice little girl six months old, with long black hair, and a good mother to look after her. I send my best regards to all the students at Carlisle, and would be very much pleased to hear from them."
