Dear Friend:

I am moved to write at least a few lines in response to your interesting letter I've received - dated 17<sup>th</sup> of last month, although you shall find mine to be less interesting. And what more as you already know that I am one of the few who has failed, through misfortune, to show what Carlisle's ex students represent and "make good" of what one learned at Carlisle School.

First and foremost I can not but join with the rest in congratulating you for the success you have attained as an educator. There must be wonderful improvement on the grounds, outside and interior of various building and departments according to the comments appearing now and then in the Arrow's columns.

As to your request - wanting the names of exstudent who has not received your letter in my locality, I am unable to help furnishing them and their addresses.

I must not forget to acknowledge my indebtedness to you for your kindness in causing our favorite - The Arrow - to be sent to me regular. And at the same time I am thanking you for the same. To the same I am indebted not only for the great pleasure it affords in reading its' interesting contents, but also for printing many of what some of the exstudents are doing and their whereabouts - whom many I still remember who attended school at Carlisle during the time I did. To be sure I watched the football schedule with intense interest and its' news. Also saw the different camping parties at Camp Cells in print.

I'm closing - wishing you another happy and prosperous year, and the same to all students and teachers and all.

I remain,

Yours Respectfully,  
Grover Stage.

My dear Friend:-

It has been my custom for a number of years to address several letters to the graduates and returned students of the Carlisle Indian School. During the past two years this has been in the nature of a Christmas letter of good cheer and greeting.

As the head of this school and the school father of many hundreds of Indians, who are now out in the world making successful use of their education, I write again to strengthen the bond which exists between this school and the many who are scattered throughout the length and breadth of the nation.

I am delighted to hear of the thrift, industry and sobriety of Carlisle's former students. Reports come back to me each day of the way in which they are making use of their education and are taking their places as useful citizens of their country. They are self-respecting and self-sustaining. It is good to know from these concrete evidences of their welfare that Carlisle's education pays.

I wish you the greatest possible success, and I hope that the Christmas season and the New Year will usher in another era of good will, contentment, happiness, and prosperity for you and yours. With best wishes, I am,

Sincerely your friend,

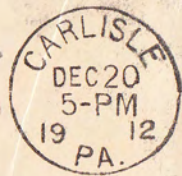

Superintendent.

P. S. I am sending you a postal card which I hope you will promptly fill out and return to me, giving the information requested. This will help me to keep in touch with you and will complete your record at the school. This postal card does not need any postage. Just fill out the blank spaces and send it on.
